Overview

A compact, user-friendly sharpener designed for consistent results in any workshop environment.

Professional Drill Bit Sharpening

This electric drill bit sharpener offers a fast, accurate, and user-friendly solution for maintaining twist drill bits. Designed to be accessible for operators of all skill levels, it restores cutting edges in approximately 10 seconds, significantly extending the lifespan of your tooling. Its compact, portable design and robust DC motor make it an essential tool for workshops, maintenance departments, and industrial applications requiring consistent drilling performance.

Technical Specifications

Clear layout of the grinding machine, including adjustment scales, collet chucks, and point angle settings.

High-durability diamond grinding wheel (CBN/SDC) ensures precision and longevity.

Performance Metrics

4400 RPM

Rotation Speed

120 W

Motor Power

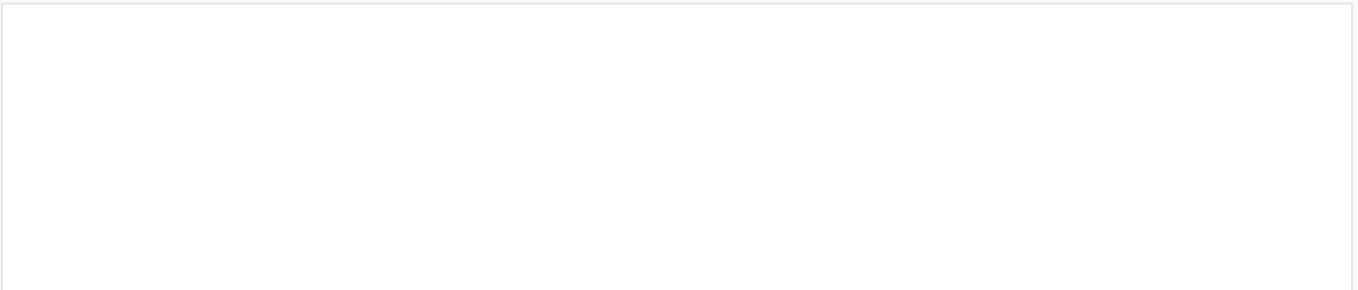

10 kg

Weight

Machine Specifications

Feature	Specification
Grinding Range	3 - 13 mm
Point Angle	100° - 135°
Voltage	AC 220V
Grinding Wheel Material	CBN or SDC
Dimensions	310 x 170 x 180 mm

Features & Benefits

Efficient design allows for sharpening drill bits in just 10 seconds with automatic tool setting.

Key Features

- Rapid sharpening process (approx. 10 seconds per bit)
- Easy operation requiring no advanced grinding skills
- Precision-controlled DC motor for stable frequency and high power
- Adjustable point size to match material and speed requirements
- Compact and portable design for on-site or workshop use
- Durable diamond grinding wheel construction

Standard Accessories

ER High Elastic Collets, Diamond Grinding Wheel, 13-Type 2-Blade Chuck Set, Allen Wrench, User Guide
