

3-5 Gallon Bottle Filling Machine

This automatic filling machine is designed for filling 3 and 5-gallon water bottles. It features stainless steel construction and a conveyor system for automated bottle handling.

Overview

Automated Water Bottling Solution

This automatic filling machine is specifically engineered for high-efficiency processing of 3 and 5-gallon water bottles. Featuring a robust stainless steel construction, it ensures maximum hygiene and long-term durability for demanding production environments. The integrated conveyor system and intuitive control panel allow for seamless operation, providing accurate and consistent filling to minimize waste.

Key Performance Metrics

Performance Highlights

3 Gallon

Min Bottle Size

5 Gallon

Max Bottle Size

Technical Design

Automation

Automatic • Conveyor Integrated

Frame Material

Stainless Steel

Control Interface

Control panel for parameter adjustment

Operational Features

Operational Advantages

- Accurate and consistent filling volumes
- Reduced product waste
- Improved operational efficiency
- Automated bottle handling via conveyor
- Hygiene-focused design

Application

Compatible Liquids

Water, Potable Liquids
