

3-9KW Flange Mount Heating Element for Appliances

This 3-9KW heating element is designed for water heaters and other household appliances. The flange mount design ensures secure installation and optimal performance.

Overview

High-Efficiency Heating Solution

This 3-9KW flange mount heating element is engineered for reliability and high performance in water heaters and various household appliances. Featuring a robust construction with multiple tubular heating rods, it ensures efficient heat transfer and long-term durability. The flange mount design allows for secure and straightforward installation, making it an ideal choice for applications requiring precise temperature control.

Technical Specifications

Power Rating

3 KW
