Product Overview

Alibaba TOP supplier for truck trailer

Versatile 3-Axle Cargo Solution

This 3-axle fence semi-trailer is a robust transportation solution designed for hauling a wide variety of goods, including containers, steel, timber, and bulk cargo. Engineered with high-tensile structural steel, it offers a 40-ton load capacity, making it ideal for demanding agricultural, construction, and general freight applications. The integrated fence structure ensures secure containment during transit while allowing for efficient loading and unloading.

Technical Specifications

Performance Metrics

3

Axle Count

40 ton

Load Capacity

40 ft

Standard Length

Axle Configuration	Tri-axle
Suspension System	Mechanical suspension
Braking System	WABCO brake system
Landing Gear	JOST landing gear
Construction Material	High robust structure steel

Applications

Target Industries

- Logistics and General Freight
- Construction and Building Materials
- Agriculture and Farming
- Industrial Machinery Transport

Supported Cargo

20ft Containers, 40ft Containers, Steel, Timber, Concrete Constructions, Bulk Cargo, Agricultural Products, Livestock

Safety & Compliance

Safety Equipment

- Reflective markings for high visibility
- Integrated lighting system
- Secure fence containment structure
- Robust chassis for load stability

Global Presence

Proven Export Regions
