Overview

Versatile 3-Gang Control Solution

This integrated switch panel features three LED rocker switches, a dual USB charging port, and a digital voltmeter, providing a centralized control hub for vehicle and marine electronics. Built with high-quality flame-retardant materials, it is designed to operate reliably in extreme temperatures ranging from -24°C to 80°C. The IP66 waterproof rating ensures durability in demanding environments like yachts, RVs, and off-road vehicles.
