Overview

Professional 3-in-1 Cordless Floor Maintenance

This advanced electric floor cleaner combines mopping, handheld cleaning, and floor waxing capabilities into a single cordless device. Designed for high-efficiency B2B applications, it features a high-frequency vibration system that mimics the action of 60-80 people mopping simultaneously. With its integrated LED lighting and 270-degree rotation, it ensures thorough cleaning in corners and low-light areas while maintaining exceptional water efficiency.

Performance & Power

The cordless design provides freedom of movement while the 900 times/min frequency delivers industrial-grade cleaning power.

Cleaning Performance

900 times/min

Mopping Frequency

55 min

Runtime

3 h

Charging Time

Battery Technology

Lithium Battery

Design & Maneuverability

Dual front LED lights illuminate hidden dirt, while the 270-degree rotating head reaches deep into corners.

Visibility Features

Dual Front LED Lights • Automatic Handle Activation

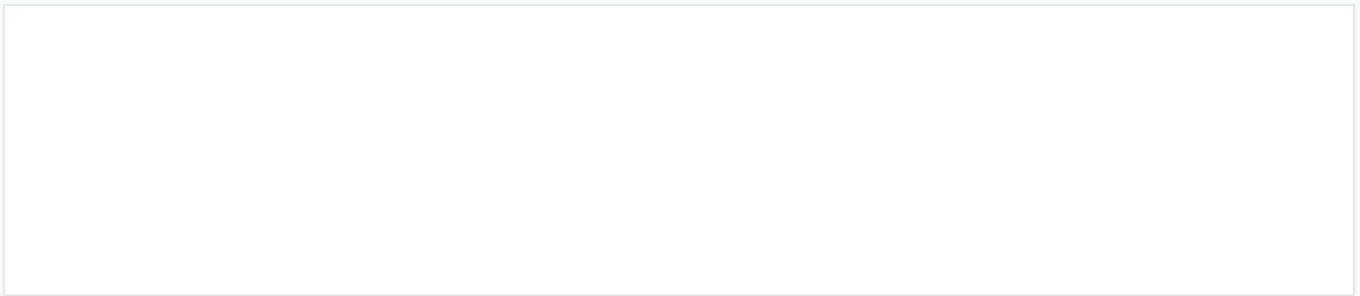

Head Rotation

270 degrees

Device Components

Spray Button, Nozzle, Water Filling Hole, Pad Attachment Area

Efficiency & Sustainability

Highly efficient water usage allows for 100m² coverage with just 0.35L of water, suitable for all hard floor types.

Water Efficiency

Method	Area Coverage	Water Used
Traditional Mop	100m ²	~10L
D3 Electric Mop	100m ²	~0.35L

Applicable Scenarios

Wooden Floor, Ceramic Tile, Laminate Floor, Marble

Maintenance & Accessories

Complete kit includes host, handle, measuring cup, cleaning pads, and adapter.

Standard Packing List
