

3-Inch Diamond Grinding Block for Concrete

This diamond grinding block is designed for concrete grinding with a 3-inch outer diameter. It is constructed with durable materials and diamond segments for effective material removal and a smooth finish.

Product Overview

High-Performance Concrete Grinding

This 3-inch diamond grinding block is engineered for demanding surface preparation tasks, including concrete grinding and coating removal. Designed for compatibility with electric power tools, it features a robust construction with optimized diamond segments for efficient material removal. Its durable bond ensures a long service life, making it a reliable choice for professional surface finishing and maintenance projects.

Technical Specifications

Model Number	GSF076
Outer Diameter	3 inch
Segment Height	16 mm
Arbor Size	5 mm
Number of Segments	10

Performance Characteristics

Primary Applications

Concrete Grinding • Surface Preparation • Coating Removal

Grit and Bond Type	Coarse Diamond, Medium Hard Bond
