Product Overview

High-Efficiency Water Transfer Solution

This 3-inch water transfer pump is engineered for demanding professional environments, offering reliable performance for irrigation, construction, and emergency water removal. Featuring a 208cc engine with enhanced power output, it provides high flow capacity while maintaining lower operating temperatures and reduced vibration. The extended-capacity fuel tank design ensures significantly longer run times, minimizing the need for frequent refueling during critical tasks.

Engine Displacement 208 cc

Inlet/Outlet Size 3 inch

Features

Core Advantages

- High-efficiency fluid dynamics
- Reinforced durable pump body
- Extended-capacity fuel tank
- Lightweight and portable construction
- Low-vibration operation

Ideal Applications Irrigation, Construction, Emergency Water Removal
