

3-Pin Non-Rewirable Power Cord

This non-rewirable power cord features a 3-pin plug on one end and a female IEC C13 connector on the other. It is commonly used for connecting computers, monitors, and other peripherals to a power outlet.

Product Overview

Reliable Power Connectivity

This 3-pin non-rewirable power cord is engineered for consistent and safe power delivery to electronic equipment. Featuring a standard IEC C13 female connector, it is an ideal solution for powering computers, monitors, and various peripherals. The durable construction ensures a secure connection for long-term reliability in professional and office environments.

Technical Specifications

Wiring Type

Non-Rewirable

Standard Compliance

227 IEC 53

Model Identifier

HL3-4(YDP-3-2D)

Connector Type

IEC C13
