Product Overview

Universal 3-Point Retractable Safety Solution

This 3-point Emergency Locking Retractor (ELR) seatbelt is designed for universal fitment across cars, trucks, buses, and engineering vehicles. Featuring heavy-duty polyester webbing and a quick-release plastic push-button buckle, it provides a secure and adjustable restraint system for both driver and passenger positions. The retractable mechanism ensures a tidy interior and automatic length adjustment for optimal occupant safety.

Technical Specifications

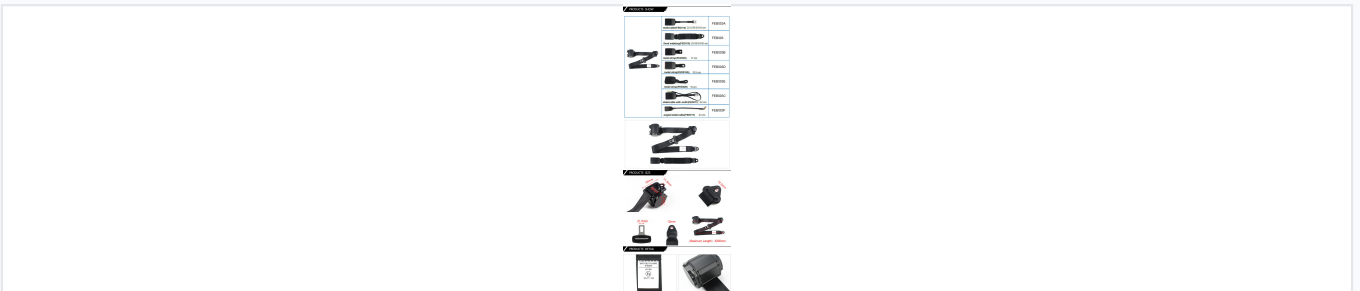

Key Dimensions

3200 mm
