Product Overview

Reliable HVAC Switching

This 3-pole magnetic contactor is engineered for demanding HVAC and refrigeration environments, offering robust switching capabilities for compressors and motors. It is CUL certified, ensuring it meets rigorous safety and performance standards for professional installations. Designed for versatility, this unit handles significant electrical loads while maintaining reliable operation in heating and cooling systems.

Electrical Specifications

Rated Current	30 A
Number of Poles	3
Coil Voltage	208/240VAC 50/60Hz
Resistive Load Rating	40 A/pole

Installation & Compliance

Torque Specifications

Component	Torque Rating
Power Terminal Screw	20 lb. in.
Lug Set Screw	40 lb. in.

Certifications	CUL Certified
Conductor Requirements	Copper conductors rated at 75°C

Service & Support

Service Policies

- Free samples available for testing (shipping paid by customer)
- OEM/ODM support
- 100% self-inspection and testing prior to packing
- Replacement guarantee for quality issues
