

# 3-Pole Contactor 30A

This 3-pole contactor is designed for HVAC and refrigeration applications. It is rated for 30A and features silver cadmium oxide contacts for reliable switching of electrical circuits.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Contactor Overview

This 3-pole SA Series contactor is engineered for robust performance in HVAC and refrigeration applications. It provides reliable control for compressors, fans, and motor-driven equipment across diverse industrial environments. Built for durability, it features high electrical and mechanical endurance, ensuring long-term operational consistency.

## Electrical Specifications

Rated Current	30 A
Voltage Range	24V-480V
Coil Voltage	24V AC 50/60 Hz

## Performance Metrics

### Key Performance Metrics

<b>250000 cycles</b> Electrical Life (Resistance Load)	<b>100000 cycles</b> Electrical Life (Horsepower Load)	<b>1000000 cycles</b> Mechanical Life
---	---	--

## Technical Standards

### Recommended Torque (CU 75°C)

Component	Torque Value
Screws	22 in-lbs
Lugs	40 in-lbs

Certifications	CE, IEC60947-4-1
