

3-Position Red Push Button Switch with LED Indicator

This 3-position push button switch with a red LED indicator is used for controlling circuits. It can be utilized for controlling signals and interlocking purposes.

Product Overview

Professional Industrial Switch

This 3-position push button switch features an integrated LED indicator designed for reliable signaling and control circuit management. Built with a high-grade zinc alloy body and specialized silver alloy contacts, it offers excellent resistance to electrical erosion. Compliant with international standards, this versatile switch is ideal for signal, warning, and emergency control applications in industrial environments.

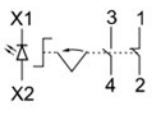

Technical Specifications

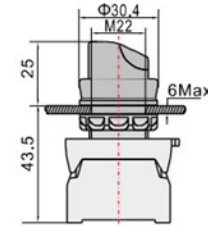

XDL22-CK4465

Illuminated Selector switch
2-position
Spring return
Standard handle with integral LED
IP65

N/O+N/C
220~240V

Electrical Ratings

660 V Max AC Voltage	400 V Max DC Voltage	10 A Thermal Current (Ith)
--------------------------------	--------------------------------	--------------------------------------

Environment

Parameter	Value
Operating Temperature	-5°C to +55°C
Storage Temperature	-25°C to +70°C
Humidity	35-85% RH
Pollution Grade	3

Protection Rating

IP40 • IP54 • IP65 • IP66 • IP67 • IP68

Compliance & Quality

Compliance Standards

- GB/T14048.1
- IEC60947-5-1
- IEC 68-2-6 (Vibration)
- IEC 68-2-27 (Impact)

Certifications
