

3-Strand Twisted Polyester Rope

This 3-strand twisted polyester rope is suitable for various industrial and commercial applications. Its twisted construction provides strength, flexibility, and ease of handling for rigging, mooring, and towing.

Product Overview

Professional Grade Polyester Rope

This 3-strand twisted polyester rope is engineered for high-tension industrial and commercial applications. Its construction balances superior strength with flexibility, making it soft and easy to tie for rigging, mooring, and towing tasks. Designed for longevity, it offers excellent resistance to corrosion, abrasion, UV degradation, and harsh chemicals.

Key Features

Handling

Soft Texture • Easy to Tie • Flexible

Performance Attributes

High Tension, Corrosion Resistant, UV Resistant, Abrasion Resistant, Chemical Resistant

Applications

Suitable Applications

- Rigging
- Mooring
- Towing
- General-purpose industrial use
