Product Overview

Professional 3-Strand Twisted Rope

This high-quality 3-strand twisted rope is engineered from premium polypropylene (PP) material to deliver exceptional durability in demanding environments. It features superior resistance to abrasion, chemicals, moisture, and ultraviolet degradation, ensuring a long service life. Its robust construction provides high breaking force and reliability for various industrial, marine, and general-purpose applications.

Material and Performance

Material	Polypropylene (PP)
Performance Features	Abrasion Resistant, Corrosion Resistant, Acid Resistant, Alkali Resistant, UV Resistant, Moisture Resistant

Usage and Safety

Applications

- Binding
- Marine
- Industrial
- Securing
- Towing
- Lifting

Safety Guidelines

- Do not use for overhead lifting
- Do not exceed working load limit
- Shock loads can reduce working loads by up to 33%
- Knots reduce rope strength by 40%
- Replace if showing signs of wear or broken fibers
