

3-Ton Automotive Floor Jack

This 3-ton floor jack is designed for automotive lifting. It features robust steel construction and a safety overload system.

Overview

Heavy-Duty 3-Ton Automotive Floor Jack

This robust 3-ton floor jack is engineered for professional automotive lifting, featuring a heavy-duty steel construction designed for durability in garage and workshop environments. It includes a safety overload system to ensure secure operation during high-capacity lifts. With smooth-rolling casters and a versatile height range, it provides reliable performance for a wide variety of vehicle maintenance tasks.
