

3 Ton Hydraulic Trolley Floor Jack (140-460mm Lift)

This 3-ton hydraulic trolley floor jack is designed for automotive and industrial applications. The heavy-duty steel construction provides exceptional strength, capable of lifting vehicles and equipment up to 3 tons (6,000 lbs).

Product Overview

Professional Hydraulic Lifting Solution

This 3-ton hydraulic trolley floor jack is engineered for demanding automotive and industrial environments. Constructed from heavy-duty steel, it offers exceptional durability and stability for lifting vehicles and equipment. The low-profile design ensures compatibility with vehicles having limited ground clearance, while the hydraulic system provides smooth, controlled operation.

Technical Specifications

Lifting Capacity

3 Ton

Capacity

6000 lbs

Capacity

Lifting Range

140mm - 460mm

Material

Heavy-duty steel

Features & Safety

Usability Features

- Low-profile design for limited clearance
- Swivel casters for maneuverability
- Long handle for convenient pumping

Safety Features

Integrated safety valve, Overload protection

Operating Instructions

Operation Guide

Action	Procedure
To Raise	Turn release valve clockwise and pump handle
To Lower	Turn release valve counterclockwise slowly
