

30 HP Two-Stroke Outboard Engine

This 30 horsepower, two-stroke outboard engine is designed for small to medium-sized boats. It features a durable construction, providing reliable performance for recreational boating and fishing.

Overview

High-Performance Outboard Engine

This 30 horsepower, two-stroke outboard engine is engineered for reliable performance on small to medium-sized boats. Designed with a focus on durability and ease of use, it features a manual start system and a tiller handle for intuitive control. Its lightweight construction ensures simple installation and portability, making it a cost-effective and efficient solution for recreational boating and fishing needs.

Technical Specifications

Horsepower	30 HP
Engine Cycle	Two-Stroke
Starting System	Manual
Control Method	Tiller Handle

Key Features

Performance Highlights

- Fuel efficient operation
- Lightweight design for easy portability
- Durable construction
- Reliable for recreational and fishing use
