Product Overview

Professional Gasoline Generator

This 3000-watt gasoline-powered generator offers a reliable and portable solution for powering essential tools and appliances. Featuring a robust frame for durability and an integrated voltmeter for real-time monitoring, it is designed for demanding environments. With versatile AC and DC connectivity options and integrated circuit breakers, this unit ensures both performance and safety for your professional operations.

Performance Metrics

Output Capacity

4000 W
Starting Watts

3000 W
Running Watts

Rated Voltage	120 V
Rated Frequency	60 Hz
Power Factor	1

Connectivity & Safety

Power Outlets

- AC 120V Outlets
- DC 12V 8.3A Output

Safety Features	Circuit Breaker, Voltmeter, Engine Switch
