Overview

High-Frequency Online Protection

This 3000VA high-frequency online uninterruptible power supply (UPS) is engineered to provide clean, stable power for sensitive office equipment. Utilizing double-conversion technology, it effectively protects critical devices against power outages, voltage fluctuations, and surges. The unit features a user-friendly interface with an LCD display for real-time monitoring of input/output voltage, load levels, and battery status.

Technical Specifications

Capacity

3000 VA
Capacity

Available Series Models

- 1000VA
- 2000VA
- 3000VA
- 6000VA
- 10000VA

Technology

High-Frequency Online Double-Conversion

Features & Interface

Control Panel

- ON/MUTE
- SELECT
- OFF/ENTER

Monitoring Capabilities

LCD Display, Input Voltage Monitoring, Output Voltage Monitoring, Battery Status, Load Level Indicator, Remote Control Interface

Application

Suitable Applications

Office Environment • Servers • Networking Equipment • Computers • Sensitive Electronics
