Overview

High-Performance Urban Commuting

This 3000W electric scooter is engineered for efficient urban mobility, combining power and reliability for daily commuting. Featuring a robust Bosch motor and a high-capacity lithium battery, it delivers a smooth ride with a maximum speed of up to 75km/h and an impressive range exceeding 100km. Designed with practical features like a removable battery system and advanced combination braking, it offers a sustainable and convenient transportation solution for city environments.
