

300kg Industrial Wool Washing Machine

This industrial washing machine has a 300kg capacity for wool and textiles. It is constructed with durable materials and features a powerful motor for efficient and reliable washing.

Overview

High-Efficiency Industrial Wool Washer

The BX series industrial washing machine is engineered for heavy-duty applications in hotels, textile mills, and commercial laundry facilities. Featuring a robust horizontal structure with a high-quality stainless steel drum, this semi-automatic machine ensures durability and consistent performance. It offers versatile heating options including steam or electric, making it a reliable solution for high-volume wool and textile processing.
