

300ml Steel Pump Oil Can

This 300ml oil can features a durable steel bottle construction. It is ideal for dispensing oil in various applications.

Product Overview

Professional Performance

This professional-grade 300ml pump oil can is engineered for high-strength car maintenance and precision lubrication tasks. Constructed from fine, durable steel, it features a reliable copper joint to ensure smooth operation and longevity. Its ergonomic design makes it an ideal choice for mechanics and professional technicians requiring consistent, controlled oil delivery.
