

300mm Welded Diamond Saw Blade for Marble

This welded saw blade is used for cutting marble with high sharpness and efficiency. It delivers clean cut edges in marble without material break out.

Product Overview

Precision Marble Cutting Solution

This 300mm welded diamond saw blade is engineered for high-level marble processing, providing exceptional sharpness and efficiency. It is designed to deliver perfectly clean cut edges without material breakout, ensuring high-quality results for professional stone fabricators. The robust construction promotes durable cutting performance across various manual and automatic cutting machines.

Technical Specifications

Diameter	305 mm
Bore Size	60 mm
Thickness	2.2 mm
Core Thickness	10 mm
Number of Teeth	21

Compatibility and Usage

Compatible Machinery	Manual Cutting Machines, Automatic Cutting Machines
----------------------	---

Safety and Maintenance

Safety Instructions

- Wear ANSI-compliant eye protection
- Use only with proper working guard
- Inspect for breakage, cracks, or loose tips before use
- Do not use on metal
- Ensure saw RPM does not exceed blade maximum
