

300W Oscillating Multi-Tool

This 300W multi-tool is a versatile power tool for cutting, sawing, sanding, and scraping. The tool's oscillating head allows for precise and controlled movements, making it suitable for detailed work.

Product Overview

Versatile Oscillating Multi-Tool

This 300W oscillating multi-tool is engineered for precision cutting, sawing, sanding, and scraping tasks. Featuring an oscillation angle of 3.2° and a variable speed range of 15,000-21,000 rpm, it offers excellent control for detailed work in confined spaces. The tool includes an SDS system for quick accessory changes and a rubberized body for enhanced grip and comfort.

Technical Specifications

Motor Power

300 W

Power Output

Voltage/Frequency	230V-50Hz
No Load Speed	15000-21000 rpm
Oscillation Angle	3.2 °
Motor Construction	Copper winding for stator

Features & Accessories

Tool Change System

SDS Quick Change

Included Accessories

- HCS Plunge blade
- HCS Scraper
- Delta sanding pad
- 2 pcs delta sanding paper
- 1 pc dust tube

Grip Design

Rubberized body
