

# 300W Outdoor Solar LED Spotlight

This outdoor LED spotlight is powered by a 5V 30W solar panel and a 3.2V 25AH battery. It features high-efficiency 3030 dual-chip LED lamp beads with a brightness of up to 190LM/W.

## Overview

### High-Efficiency Outdoor Solar Spotlight

This 300W outdoor solar LED spotlight is designed for robust performance in various environmental conditions. Featuring an integrated high-capacity battery system and advanced 3030 dual-chip LED technology, it provides high-intensity illumination suitable for security and landscape lighting. Its weather-resistant construction ensures reliable operation and long-term durability for outdoor applications.

## Technical Specifications

### Power Output

**300 W**

Power Rating

Solar Panel Specifications	30 W
Battery Capacity	25 AH
Controller Voltage/Current	3.2V 10A

## Performance

### IP Rating

IP67

LED Brightness Efficiency	190 LM/W
LED Type	3030 Dual-Chip

## Included Components

### Package Contents

- 300W Solar LED Spotlight
- Customized Color Box
