

300W Personal Smoothie Blender with Tritan Jug

This personal blender features a 300W motor, operating at 22000RPM, and includes a 600ML Tritan jug. It comes with a special drinking lid and is designed for easy operation and portable use.

Product Overview

Compact Personal Blender

This 300W personal blender is designed for efficiency and portability, featuring a durable Tritan jug and an ABS housing. With a 600ML total capacity and a user-friendly, vase-style design, it is ideal for quick, on-the-go smoothies. The unit includes safety features like a locking cup lid and external silicone protection to ensure safe operation and easy cleaning.
