

# 3050mm Round Shank Cutter Bit

This 3050mm round shank cutter bit is used for foundation drilling. It is compatible with all kinds of rotary piling machines and drill rigs.

## Product Overview

High-performance round shank tools featuring diverse tip designs for specific geological requirements.

## Professional Foundation Drilling Tools

These round shank cutter bits are specifically engineered for foundation drilling and are compatible with a wide range of rotary piling machines and drill rigs. Designed to withstand high-volume daily production, these tools provide enhanced drilling speed and an extended service life. Each unit is built to reduce tool changing times, ensuring consistent performance in demanding construction environments.

## Compatibility & Replacements

<b>Betec Series Compatibility</b>	B43/3, B1HDK12, B3, B3K, B1HDK12K, B40HDK12, B40HDS, B40/3, B40K17, B40/9, B47KH17, B47K19, B47KH22, B47K22/60, B47K25/57
<b>Kennametal Series Compatibility</b>	C21HD, C23HD, RL08, RL09, RL10, RL11, C31, C31HD, B40HD, C4, U47HD, DS01, DS02, DS03, DS04, DS05

## Product Ecosystem

### Complete Tooling Line

- Casing tools and holders
- Round shank bits
- Welding bars
- Quick change bars and holders
- Weld on casing bars
- Stop wedges
- Screw connections
