Overview

High-Performance Silent Diesel Generator

This 30kW/38kVA silent diesel generator is designed for reliable power generation across a wide range of industrial, commercial, and residential applications. Engineered for efficiency and durability, it features a brushless alternator and advanced automatic control systems for stable, consistent power. The robust, soundproof enclosure ensures quiet operation, making it ideal for noise-sensitive environments like hospitals and hotels.

Technical Specifications

Highlighted features including the Deepsea control system, low noise cabinet, and copper coil protection.

Generator Configuration

Feature	Detail
Model	DCH30S-3
Voltage	400V / 230V
Frequency	50Hz / 60Hz
Phase	3-phase, 4-wire
Engine Model	YC4D60-D21

Key Components

- Brushless Alternator
- Auto PLC Controller
- Low Noise Soundproof Cabinet

Compliance & Quality

Certifications

CE Certified, ISO 9001, Occupational Health and Safety Standards

Application

Suitable Applications

Mines • Building Sites • Oil Fields • Hospitals • Schools • Ports • Hotels
