

## 30L Automatic Sensor Trash Can

This 30L trash can offers hands-free operation thanks to its automatic sensor. The lid opens when motion is detected and closes automatically.

### ADDITIONAL IMAGES

### Overview

Sleek white finish with smart sensor technology for hands-free waste disposal.

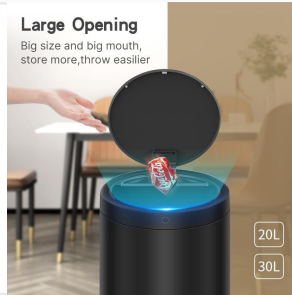

### Smart Waste Management Solution

This 30L automatic sensor trash can offers a high-capacity, hygienic solution for modern waste disposal. Featuring advanced kick-activated technology and a rapid 0.3s response time, it allows for completely hands-free operation in busy environments like kitchens and offices. The durable cold-rolled steel body and soft-close lid combine functionality with a sleek, professional aesthetic.

## Key Features

### Large Opening

Big size and big mouth, store more, throw easier

Large opening design allows for easy disposal of bulky items.
