

30L High Pressure Pipe Dredging Cleaner

This 30L high-pressure pipe dredging cleaner is designed for heavy-duty cleaning. It delivers a powerful water flow to remove stubborn blockages and debris in pipes and drains.

Product Overview

Industrial-Grade Pipe Dredging Solution

This high-pressure cleaner is engineered for continuous, heavy-duty operation, capable of running for 24 hours without interruption. Its compact design and pneumatic tires ensure it is both shock-proof and highly maneuverable, making it an ideal choice for industrial and commercial environments where space is at a premium. Designed for reliability, it provides effective removal of stubborn blockages and debris in pipes and drains.

Technical Specifications

Tank Capacity	30 L
Operation Capability	Continuous (24 hours)

Design & Mobility

Storage & Organization

- Integrated hose reel
- Compact footprint
- Sturdy frame construction

Mobility Features	Pneumatic tires, Shock-proof design, Compact frame, Easy to move
-------------------	--

Application

Best For

Industrial Cleaning • Commercial Use • Pipe Dredging • Drain Maintenance
