Product Overview

Professional 30mm Drain Cleaning Solution

This comprehensive set of 30mm cutters and drills is engineered for efficient pipe clearing and blockage removal. Featuring a versatile array of specialized heads, the system allows professionals to detect, retrieve, and eliminate various obstructions ranging from grease and soap to root systems and debris. Designed for compatibility with standard drain cleaning machinery, these high-durability tools ensure reliable performance across multiple stages of the cleaning process.

Technical Specifications

Model Specifications

Tool Type	Model No.	Diameter (mm)
Straight Auger	T-1-c	30
Funnel Auger	T-4-c	30
Retrieving Auger	T-5-c	30
Grease Cutter	T-7-c	30
Sawtooth Cutter	T-8-c	30
C-Cutter	T-9-c	30

Working Diameter	30 mm
Included Tool Types	Straight Auger, Funnel Auger, Retrieving Auger, Grease Cutter, Sawtooth Cutter, C-Cutter

Usage Guidelines

Application Summary

- Straight Auger: Detect or remove blockages in first stage
- Funnel Auger: Second stage cleaning of inner pipe surfaces
- Retrieving Auger: Recovery of shafts/tools and weaving materials
- Grease Cutter: Removal of grease and deposits
- Sawtooth Cutter: Cutting roots, branches, and debris
- C-Cutter: Finishing cleaning for grease and soap
