

# 30W Foldable Solar Blanket for RVs

This 30W solar blanket is designed for RV and off-grid applications. Its compact, foldable design ensures easy storage and transportation for outdoor use.

## ADDITIONAL IMAGES

## Product Overview

### Portable Renewable Energy Solution

This 30W foldable solar blanket offers a high-efficiency power solution specifically engineered for RVs and off-grid environments. Designed for maximum portability and durability, the lightweight, folding construction ensures easy transport and quick setup during camping or emergency situations. It provides a reliable source of renewable energy for keeping small electronics and appliances powered while outdoors.

## Technical Specifications

### Rated Power Output

**30 W**  
Power Output

### Design Features

Foldable, Portable, Compact, Durable Fabric

## Applications

### Primary Applications

- Recreational Vehicles (RVs)
- Off-grid power systems
- Emergency preparedness
- Camping and outdoor recreation
- Hiking
