

30W Outdoor LED Solar Flood Light

This LED solar flood light provides bright, focused illumination for outdoor spaces. Its polycrystalline solar panel ensures rapid charging, while its IP67-rated housing guarantees weather-proof performance.

Product Overview

High-Efficiency Outdoor Solar Lighting

This 30W LED solar flood light is engineered for reliable outdoor illumination, featuring a high-efficiency polycrystalline solar panel for rapid charging. Its durable construction ensures consistent performance in diverse weather conditions, making it an ideal choice for security lighting, pathways, and general outdoor areas. With an IP67 weatherproof rating, this unit combines low energy consumption with bright, focused light output.
