Product Overview

Ultra-Compact 30W Universal Power Solution

This 30W Universal Power Adapter features advanced GaN technology, ensuring high efficiency and a compact design suitable for laptops, tablets, and mobile phones. With an energy efficiency class VI rating and multi-protocol support including PD3.0 and QC3.0, it delivers fast, reliable power in an exceptionally lightweight form factor. Engineered for global use, it is an ideal choice for professionals needing a portable, high-performance charging solution.

Technical Specifications

Output Metrics

30 W Output Power	92 % Conversion Efficiency	0.075 W Standby Consumption
-----------------------------	--------------------------------------	---------------------------------------

Output Voltage/Current

Voltage	Current
5V	3A
9V	2A / 3A
15V	2A
20V	1.5A

Energy Efficiency Level

Class VI

Input Specifications	AC 100-240V ~ 1.5A 50-60Hz
Supported Protocols	PD3.0, QC3.0, QC2.0, Apple 5V/2.4A

Physical Attributes

Dimensions	39mm x 39mm x 28mm
Weight	50 g
Operating Temperature	0 to 40
