

32-Element DVB-T Antenna for HDTV

This high-gain, 32-element DVB-T antenna is designed for terrestrial digital video broadcasting reception and is compatible with HDTV signals. It features robust construction for reliable performance in various weather conditions and includes mounting hardware for easy installation.

Product Overview

High-Performance Terrestrial Reception

This 32-element DVB-T antenna is engineered for high-gain terrestrial digital video broadcasting reception, ensuring clear HDTV signal quality. Built with robust construction, it is designed to maintain reliable performance across various weather conditions. The unit includes all necessary mounting hardware for straightforward installation and supports both DVB-T and DVB-T/H standards.

Technical Specifications

Included Components

- 32-Element Antenna Array
- Mounting Hardware Kit

Element Count	32
Supported Standards	DVB-T, DVB-T/H, HDTV

Compliance & Quality

Certifications

CE • ISO 9001 • CNAB
