

32-Ton Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is designed for lifting heavy loads. It features robust construction and a compact design, making it ideal for automotive, construction, and industrial applications.

Product Overview

Professional Grade Lifting Solution

This 32-ton hydraulic bottle jack is engineered for high-performance lifting in industrial, automotive, and construction environments. Its robust construction ensures reliable power, while the integrated safety overload system protects both the equipment and the operator during intensive use. Designed with a compact footprint and durable finish, it offers a portable yet heavy-duty solution for supporting substantial loads.

Key Performance Metrics

Rated Capacity

32 ton

Lifting Capacity

Safety and Operation

Safety Compliance

Safety Overload System, Level Surface Requirement, Load Support Mandatory

Usage Guidelines

Important Safety Warnings

- Do not exceed rated capacity
- Base must rest on a solid level surface
- Use jack only for lifting, not for support
- Immediately support load with appropriate means after lifting
