

## 32A Miniature Circuit Breaker MCB

This miniature circuit breaker (MCB) is designed for circuit protection in electrical systems. It has a C32 tripping characteristic and is rated for 230/400V, complying with IEC60898 standards to protect against overloads and short circuits.

### ADDITIONAL IMAGES

### Product Overview

#### Reliable Circuit Protection

This Miniature Circuit Breaker (MCB) is engineered for robust overload and short-circuit protection in electrical lines. Designed for versatility, it is suitable for AC 50/60Hz systems and is ideal for residential, commercial, and industrial distribution boards. Compliant with international standards, it ensures the safety and longevity of your electrical installations.
