Product Overview

High-Efficiency LED Corn Light

This 32W LED corn light is engineered for superior energy efficiency and omnidirectional illumination, making it an ideal replacement for traditional HID lamps. Featuring a robust construction with multiple LED arrays, it provides consistent 360-degree light distribution suitable for both indoor and outdoor environments. Designed for longevity and low power consumption, this lamp offers instant-on functionality for immediate, high-quality lighting.

Technical Specifications

Power Consumption	32 W
LED Technology	2835 SMD LEDs
Distribution Pattern	360-Degree Omnidirectional
Model Identifiers	5820C-2-200L, S-536

Performance Features

Key Benefits

- Energy-efficient HID replacement
- Instant-on functionality
- Low power consumption
- Long operational lifespan

Application Suitability

Indoor Use • Outdoor Use • Enclosed Fixtures
