

348cc Adventure Touring Motorcycle

This adventure touring motorcycle features a 348cc single-cylinder, liquid-cooled engine for balanced power and efficiency. It is equipped with a robust chassis, long-travel suspension, and comfortable riding position suitable for various terrains.

Overview

High-visibility digital dashboard with real-time metrics and riding modes.

Adventure Touring Excellence

This 348cc adventure touring motorcycle is engineered for versatile performance on both paved roads and challenging terrains. It combines a high-compression, liquid-cooled engine with advanced fuel injection and a dual-channel ABS system for superior safety. Designed with rider comfort in mind, it features an ergonomic seat, adjustable windscreen, and robust handguards for long-distance touring.

Engine & Performance

Precision-engineered fuel injection system for optimal efficiency.

Engine Performance

348 ml

Displacement

29 kW

Max Power

32.8 N.m

Max Torque

12.3 :1

Compression Ratio

Engine Specifications

- Single cylinder configuration
- Double-top camshaft (DOHC)
- Water cooling system
- BOSCH electronic fuel injection
- Electric ignition

Chassis & Dimensions

Physical Dimensions

Attribute	Value
Length	2085 mm
Width	850 mm
Height	1320 mm
Wheelbase	1380 mm
Seat Height	795 mm
Ground Clearance	150 mm

Weight & Capacity

196 kg

Curb Weight

189 kg

Loading Capacity

19 L

Fuel Tank

Handling & Safety

Ergonomic handlebar controls for lights, modes, and windshield adjustment.

Front assembly featuring inverted forks and high-performance ABS braking.

Safety Systems

- LED headlight/taillight/turn signals
- Dual disk brake system
- Tire pressure monitoring system

Handling Technology

Dual Channel ABS, Radial Tires, Aluminum Alloy Body, Slipper Clutch, Oil Sealing Chain
