

# 3.5 kVA Gasoline Inverter Generator with Parallel Function

This is a 3.5 kVA gasoline inverter generator. It has a parallel function available.

## Product Overview

### Compact Power Solution

This 3.5 kVA gasoline inverter generator is designed to provide clean, stable, and reliable power for various applications. Its compact and portable design makes it an excellent choice for emergency backup, camping, or outdoor professional use. Engineered for efficiency, it combines low-noise operation with optimized fuel consumption to ensure consistent performance when you need it most.

## Technical Specifications

### Rated Output

**3.5 kVA**

Power Capacity

Generator Type	Inverter
Fuel Type	Gasoline

## Features

### Ideal Applications

- Emergency Backup Power
- Outdoor Camping
- Tailgating
- Professional Field Work

Key Features	Parallel Function, Portable Design, Low Noise Operation, Fuel Efficient
