

3.5 Ton Capacity Forklift Truck

This heavy-duty forklift is designed for material handling in industrial and commercial environments. It features a robust chassis and hydraulic lifting system and is suitable for lifting and transporting loads up to 3.5 tons.

Overview

Industrial Material Handling Solution

This 3.5-ton capacity forklift is engineered for heavy-duty material handling in demanding industrial and commercial environments. Built with a robust chassis and a powerful hydraulic system, it ensures reliability for lifting and transporting heavy loads across warehouses and construction sites. The unit integrates essential safety features, including an operator restraint system and warning lights, to maintain high standards of workplace security.
