

350mm Circular Saw Blade for Trimming

This circular saw blade has a 350mm diameter and a 50.8mm arbor size. It is 5.0mm thick and features 70 teeth for precise trimming.

Product Overview

Professional Trimming Performance

This 350mm circular saw blade is precision engineered for high-performance trimming applications. Utilizing premium imported carbide tips and a durable 75Cr steel body, it ensures excellent cutting life and noise reduction. Designed for industrial use, it is the ideal solution for achieving smooth, accurate cuts in double veneer particleboard, MDF, and plywood.

Technical Specifications

Blade Diameter	350 mm
Arbor Size	50.8 mm
Blade Thickness	5 mm
Number of Teeth	70

Material Composition

Composition Details

- Luxemburg imported alloy carbide tips
- 75Cr steel blade body

Compatibility & Usage

Cutting Materials	Double veneer particleboard, MDF, Plywood
Recommended Machines	Stationary sliding table saws
