

350W Drill Press for Wood and Metal

This drill press is equipped with a 350W motor, providing sufficient power for drilling through wood, metal, and plastics. Variable speed control allows users to adjust the drilling speed according to the material and application.

Product Overview

Precision Drilling Performance

The 350W Drill Press is a versatile and robust tool engineered for precision drilling tasks across wood, metal, and plastics. Featuring a powerful 350W motor and five adjustable speed settings ranging from 620 to 2620 rpm, it offers the flexibility needed for various material requirements. Its sturdy construction ensures stability during operation, making it a reliable addition to any professional workshop or serious DIY setup.

Technical Specifications

Rated Input Power	350 W
Voltage Options	110-120V, 220V
Frequency	50/60Hz
Speed Settings	5

Safety & Compliance

Safety Guidelines

- Always wear eye protection
- Avoid wearing loose clothing
- Clamp workpiece to prevent spinning
- Keep hands clear of drill bit and workpiece
- Fasten machine base to workbench before use

Safety Features

Chuck guard • Labeled on/off switch
