

# 355mm 2600W Power Angle Cutter

This power angle cutter features a 2600W motor for heavy-duty cutting. It uses a 355mm blade with a 25.4mm bore, providing a maximum cutting depth of 120mm and a no-load speed of 4300r/min.

## Overview

### High-Performance Cutting Capability

This 355mm power angle cutter is engineered for demanding industrial cutting tasks, featuring a robust 2600W motor that ensures consistent power delivery. Designed for versatility and precision, it supports a maximum cutting capacity of 120mm, making it suitable for a wide range of heavy-duty materials. With a no-load speed of 4300 RPM, this tool provides the efficiency and reliability required for professional-grade fabrication and construction applications.

## Technical Specifications

Rated Power	2600 W
Blade Diameter	355 mm
Bore Diameter	25.4 mm
No-Load Speed	4300 r/min
Max Cutting Depth	120 mm

## Electrical

Voltage	220-240V
Frequency	50/60Hz

## Performance Metrics

### Key Performance Metrics

<b>2600 W</b> Power Output	<b>4300 RPM</b> Speed	<b>120 mm</b> Max Cut
