Product Overview

High-Performance Cutting Efficiency

This professional-grade 355mm cutting wheel is engineered for precision and durability in heavy-duty metal fabrication. Constructed with premium abrasives, synthetic resin, and reinforced fabric, it ensures consistent performance across diverse applications including stainless steel, alloy steel, and non-ferrous metals. Designed for compatibility with both portable and stationary machinery, this tool is the reliable choice for demanding industrial cutting tasks.

Technical Specifications

Maximum Speed

4400 RPM

Max RPM

80 m/s

Max Peripheral Speed

Dimensions

355 x 3.0 x 25.4 mm

Compliance and Safety

Usage Safety

- Always use machine guard during operation
- Wear personal protection gear and eye protection
- Ensure proper wheel mounting before use
- Inspect for defects to avoid wheel breakage and injury

Safety Standards

EN12413

Application Suitability

Compatible Materials

- Metal
- Stainless Steel
- Alloy Steel
- Non-ferrous metal
- Stone
