

3.5kW Marine Diesel Generator Set

This marine generator set provides a compact and reliable power solution for marine applications. It delivers 3.5kW of electrical power, ensuring a stable supply for onboard systems and equipment.

Overview

Compact Marine Power Solution

The 3.5kW Marine Diesel Generator Set is a robust and reliable power solution specifically engineered for marine environments. Featuring a high-performance diesel engine, this unit delivers consistent 3.5kW electrical output to support critical onboard systems and equipment. Its compact design and durable enclosure ensure stable, long-term operation in demanding maritime conditions.

Technical Specifications

Rated Power Output

3.5 kW

Rated Power

Model	3.5 GFMK-LDE
Engine Type	Diesel

Features & Compliance

Key Features

- Marine-grade enclosure
- User-friendly control panel
- Compact design
- High durability

Application	Marine, Onboard Power, Off-grid
