

3.5kW Portable Gasoline Generator

This portable gasoline generator provides electrical power with a 3.5kW output. It is equipped with a voltmeter, circuit breaker, and sockets, and is built with a sturdy frame for protection and portability.

Overview

Reliable Portable Power Solution

This 3.5kW portable gasoline generator is engineered to provide dependable electrical power for various backup or mobile applications. Featuring a robust frame for enhanced protection and easy transport, it is equipped with essential safety and monitoring tools including a voltmeter and circuit breaker. Designed for efficiency, this unit delivers a consistent 230V output, making it a versatile choice for professional and emergency power needs.
