

3.5mm LCD Splicing Screen for Large Format Displays

This LCD splicing screen is designed with a 3.5mm narrow bezel for creating large-format displays. It provides high brightness and contrast, along with wide viewing angles, making it suitable for control rooms, conference rooms, and digital signage.

Product Overview

Professional Large Format Splicing Display

This high-definition LCD splicing screen features an ultra-narrow 3.5mm bezel, making it an ideal solution for seamless large-format video walls. Designed for professional environments, it offers a high contrast ratio and wide viewing angles to ensure clear, vibrant visuals. It is perfectly suited for demanding applications such as conference rooms, exhibition halls, and control centers.
