

36/40L Electric Steam Oven with Water Pump

This electric steam oven combines steaming and baking capabilities in a single appliance. It features a stainless steel interior, a double-layer door, and an adjustable temperature range from 30 to 230 degrees Celsius.

Product Overview

Versatile Steam Cooking Solution

This 36/40L electric steam oven offers exceptional culinary flexibility for professional kitchens. It is expertly designed to handle vegetables, fish, grains, and meats while ensuring perfect results for baking bread, custards, and casseroles. With advanced steam technology, it delivers crispy exteriors while locking in moisture, providing an efficient and safer alternative to traditional boiling methods.
